

## Leaves tornado!

I love to sit and  
gaze at the trees in Autumn.  
I see the green, brown leaves  
Starting to form a tornado  
For a few seconds as a  
Sudden gust of wind blows.  
I feel the drifting wind blow across  
My face as I feel the lush, green  
Grass tickle through my fingers.  
I can hear the Autumn leaves  
Shatter softly to the ground.  
I smell the clean, fresh air.  
I love to watch the leaves blow up into the air when  
The wind comes to catch them!
