

Lock 11

Lock 11 is a nice quiet place with the Murray River rushing through it. It has got a lot of ducks, pelicans, and etc. kookaburras up in the trees while ants (sometimes bees) are on the ground. Last time I went there, I was on an excursion...

Firstly we arrived by bus. We were surprised that it was REALLY quiet! We could only hear birds chirping!!!! We saw LOTS of pelicans on the water. We sat down on the grass, it was soft. We could also hear the soft wind and the river crashing against the rocks.

In other words, lock 11 was the best!
