

## **Lock 11**

**On Monday 27<sup>th</sup> of August, all the Middle Unit went to Lock 11. We went there to help us write for our Special Forever Writing.**

**We saw brown and gold ducks and white pelicans. The trees were blowing in the wind and it gave a lovely breeze that reminded me of a feather tickling me. There was beautiful green grass and lovely blue sky. On top of the water there were sparkles shining in the sun. SPLASH! The fish and birds diving in the water. I felt so happy!**

**I heard the sound of leaves rustling. The sound of ripples on the water. Birds chirping and pelicans flying. I felt so relaxed!**

**I felt the warm sun on my face and the soft sand going through my fingers. The ants crawling through our fingers and the bees flying around making us all laugh. It is great fun.**

**I felt alive and safe down there. I was very very glad that we went to Lock 11. It reminded me all about nature.**
