

# My River

Here I am sitting in my favourite place to be next to a huge gum tree. It has children playing, laughing, singing and climbing on it

It hangs over the mighty river where I love to swim and ski board

I can hear the sounds of the river as the boats go past very fast I can feel the prickly grass as I sit down and also the bushes that tickle me as I walk past.

When I am out camping I love the sounds of the kookaburras laughter and the owls hooting

I also feel nice and cozy when I'm sitting at the campfire in my blanket nice and warm.

As the camp fire crackles in the still night, the smoke gets into my eyes, oh how it hurts.

Sitting amongst the bush at night, safe with my family by my side, I know this is the place where I love to be
