

The Murray river

The Murray River is a place of beauty.

Everybody should love and respect the Murray.

Its amazing beauty should be kept for years.

The wild life needs the Murray River to survive as well as humans.

Everybody needs the water to survive so that's why people need to protect its life.

Everybody loves seeing the fish splashing in and out of the water.

So everybody should be taking care of the Murray River's beauty

People love hearing the water flowing and splashing.

Everybody loves watching the water.

Everybody loves the Murray river.

That's why every person should look after the Murray River's life
