

THE RIVER

It was a warm day at the river. The pelicans and ducks were playing. It was a beautiful sight.

The grass was swaying, the leaves were rattling and the water was going side to side. Everyone was happy. Trees were not chopped.

We went across the lock and went onto Lock Island. There were birds chirping, kookaburras singing near the crystal clear water and ants crawling everywhere. Boats were there.

I was FULL OF AWE. It reminded me of the Murray-Darling Junction.

Soon we left lock 11 and the river. We are so lucky to live in Mildura.
